Looking after your home.

Keeping your home and building safe

We conduct regular checks to make sure you and your family are safe, both inside your home and within your communal areas.

- We carry out regular essential checks in your communal areas to ensure we're meeting building safety standards, particularly around fire safety and general health and safety risks. If you rent with us, we'll also carry out safety checks in your home.
- In our independent living schemes, we carry out additional health and safety checks, including weekly fire alarm testing to ensure everything is working as it should.
- If you've any safety concerns within your communal spaces we'll work with our contractors to address them as quickly as possible to ensure the safety of all residents.
- If you live in a high-rise building, we provide you with clear safety information and carry out additional checks that may be needed for your peace of mind.
- When we don't own the building, a managing agent is likely to be responsible for safety checks. We ask them to share this information with us to ensure your safety, as well as checking compliance and their performance.
- In some of our buildings where there are communal heating systems, we'll let you know who is responsible for servicing and the most cost-efficient way to use it.

Communal maintenance

You've told us how important it is to feel comfortable and safe in the spaces you share, so we focus on keeping your communal areas clean, well-maintained and welcoming for everyone.

- We make sure that your communal spaces are clean and safe for everyone. This includes your outdoor shared spaces and communal gardens.
- If we don't manage these areas, we'll let you know who does and challenge poor performance. Where services haven't been delivered, we'll seek a refund on your behalf and keep you updated on what's happening.
- We carry out regular estate inspections to identify any issues in your communal areas, and we'll let you know when an inspection is coming up via MyMoat or noticeboards in your building.
- We take care of trees in your shared spaces, carrying out regular surveys and pruning when needed to keep things safe.
- If there are any fly-tipping, abandoned vehicles or graffiti issues, we work with our partners to address them quickly and keep your outdoor spaces at their best.

Communal repairs

If something needs fixing in your communal areas, we'll ensure it's investigated and repaired quickly to a high standard.

- We aim to attend emergency repairs within four hours to make safe and to complete the repair within 24 hours.
- We partner with repairs specialists to manage our communal repairs service. If there are repairs needed in communal corridors, stairwells and external common areas we own and manage, our repairs contractors will manage these repairs on our behalf.
- When we don't own the building, a managing agent is likely to be responsible for the communal repairs and maintenance. We keep in regular contact with the managing agents for these buildings, monitoring their performance and raising any concerns.

Looking after your building

We understand how important it is to live in a home free from damp and mould. Sometimes, issues with the roofing or structure of a building can contribute to these problems. If we're responsible, we'll make sure to take the necessary steps to resolve them as quickly as possible.

- To help you identify and report any damp and mould we've a dedicated advice page on our website with tools, tips and advice.
- Where the cause of any damp and mould is considered to relate to your building, we'll work with you or any relevant external agencies or third parties to address this.

We know every community is different - and sometimes, yours might need extra support.

That's why, alongside the everyday services we provide, we also offer tailored help when and where it's needed most. We call this our community support.

We'll keep checking in, so the support we offer reflects what matters most to you and your neighbours.

It's all about listening to you. When we spot local issues or hear from our teams that something isn't working as well as it should, we take action. Whether it's extra support with community safety, or help bringing people together—our goal is to make a real difference, right where you live.

Together, we can build stronger, more connected communities.
